Technical Skills

- Languages: Python, Java, JavaScript, HTML, CSS
- Frameworks: React.js
- Technologies: Git & GitHub
- Design: Figma

Interpersonal Skills

- Problem-solving
- Leadership
- Critical thinking
- Team Work

Awards

Top 10 In IX-23,
IEEE Student Branch of IIT ✓
09/2023

- Placed top 10 out of 150 teams in IX-23, an inter university designathon.
- Developed XR-based UI/UX solutions for a two-phased, 24 hrs research-oriented designathon
- Honed problem-solving, teamwork, communication, and time management skills

Profile

A passionate computer science undergraduate driven to innovate and learn. Seeking an entry-level position where I can apply my skills, learn and gain valuable industry experience. I am eager to collaborate with experienced professionals and make a meaningful contribution to your organization.

Education

BSc (Hons) Computer Science,
Informatics Institute of Technology

09/2022 – present

Currently pursuing a BSc in Computer Science at Informatics Institute of Technology, affiliated with the University of Westminster, expected graduation in 2026.

Cambridge GCE AL & GCE OL,
Lyceum International School

Successfully completed in commerce stream

Projects

Smart Home Application, *Technologies Used: React.js, Tailwind CSS, Git Version Control* ✓

09/2023 – 12/2023

- Integrated real-time clock functionality and live weather updates from Weather API.
- Implemented secure user authentication through Clerk for enhanced privacy and personalized experiences and successfully deployed the application on Netlify.

Calculator Application, *Technologies Used: React.js*
08/2023

Tech-Triathlon, *Rootcode* ✓
07/2023 – 08/2023

- Initiated and designed a space themed mobile application prototype using Figma.

CodeSprint 7.0, *IEEE student branch of IIT* ✓
01/2023 – 04/2023

- Initiated and designed a peer tutoring website prototype using Figma.

Explore UAE: Tourism Website,
Technologies Used: HTML, CSS, JavaScript
03/2023 – 04/2023

Theatre Seat Booking System, *Technologies Used: Java*
02/2023 – 03/2023

Leadership Experience

IEEE RAS Finance Lead,
Informatics Institute of Technology
present

Sports Coordinator,
Informatics Institute of Technology
06/2023 – 08/2023

Senior Prefect,
Lyceum International Wattala
2020 – 2021

Clubs and Societies

IEEE Global, Member
present

Extra-Curricular Activities

Football
Member of the IIT Football team

Interests

AI Concepts • Cyber Security

Web Design / Development

Academic Progress Management System,
Technologies Used: Python
11/2022 – 12/2022

Additional Qualifications

React Mastery Course, *Stem Link*
present

Fundamentals of Git & GitHub, *Microsoft*
09/2023

Microsoft Learn AI Skills Challenge, *Microsoft*
07/2023 – 08/2023

- Fundamentals of Microsoft Power Apps and Power Automate

Python Crash Course, *Stem Link*
11/2022 – 02/2023

Hackathons & Events

IEEEExtreme 17.0

- Attended IEEEExtreme, a 24 hrs global programming competition
- Gained valuable experience in problem-solving, teamwork, and time management

Summer Bootcamp, Mozilla Club of IIT

- Developed a personal portfolio website using MERN stack.
